TO LUMBER MANUFACTURERS AND DEALERS.

VALUABLE Property at private sale, situated on the Straits opposite Mackinaw, and on the Sheboygan River, containing about 18,000 acres of land, a large portion of which is heavily timbered with best quality of pine. The improvements on this property are, 1st—the village of DUNCAN, on the main land South Channel or pass is a large steam Mill, of modern construction, with Siding Machine, Shingle and Lath Machines, and capable of manufacturing fifty thousand feet of lumber in 24 hours, also, Hotel, Land Office, Store and sundry dwelling houses and Smith shop. The Sheboygan Steam Mill, on and near the mouth of Sheboygan River. The Sheboygan Water Mill, one mile from the mouth, with dwelling houses, barns, &c. At Duncan a Pier is erected, extending out to a sufficient depth of water to accommodate any vessel navigating the Lakes. This is admitted by navigators, by reason of the bay and Pier, to be the best Lake Harbor between Detroit and Chicago—it is a desirable Wooding and Coaling Point being on the direct route for Propellers and sailing vessels. This property is desirable as a point at which a town must soon grow up, as the country back of it is fast filling up, for many miles, with settlers.

The Sheboygan Water Mill has the entire power of Sheboygan River, a never failing stream of great volume, which never freezes, the dam being at the falls of the river, is easily kept in repair. This is the most valuable water privilege in the State of Michigan, north of Grand Rapids.

To a company or individuals, desirous of entering into the lumber trade, this property offers rare inducements, with a certainty of greatly increased value in a very few years, and will be sold much below original cost, or present value, to close a concern.

The old Eagle going it with a Rush!

THE EAGLE
STEAM FOUNDRY!
—OF—
TURTON & SERCOMB,
296, 298, 300, 302 and 304 West Water St.
IS STILL IN FULL BLAST, WORKING DAY AND night to supply the daily increasing wants of the Badger and other States.
In order the better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing, or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a 8 cam Engine of — horse power to drive the whole, thereby adding to their former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. They never were in a better position for doing business, and

in any department.
In regard to the character of the work got up by this
The Oldest Establishment in the State
the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS and know how work should be done as well as the next man.
They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.
They have always on hand a large stock of BRASS WORK, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND GLOBES and STEAM WHISTLES. Also TURTON'S FILES, which they will sell at the lowest cash price.
They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.
In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.
Their motto, "*Excelsior*."

BOERHAVE'S
HOLLAND BITTERS

THE CELEBRATED HOLLAND [illegible] FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND AGUE,
And the various affections consequent upon a disordered
STOMACH OR LIVER,
Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.
This is a purely vegetable compound, prepared on their strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.
It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.
NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.
CAUTION!
The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

MILWAUKEE:
Thursday Morning, Nov. 20.

PROCLAMATION.

A year of general peace and prosperity is drawing to a close. During this period our young State has steadily advanced in her rapid career towards wealth and greatness. Her resources have received an ampler developement. New avenues of trade and intercommunication have been opened, and a fresh impetus given to all departments of industry. Labor in all legitimate spheres of exercise has been bountifully rewarded. A generous harvest has filled the land with plenty, while health and happiness have prevailed within our borders. In the enjoyment of these temporal blessings, we should not be unmindful of the Gracious giver of all good gifts, the manifold exhibitions of whose favor and guardian care, meet us on every hand, and, that we may express our gratitude for these bounties, I hereby appoint Thursday, the 20th day of November next, to be observed as a day of Public Thanksgiving and Praise throughout the State.

In testimony whereof, I have hereunto subscribed my name and caused the Great Seal of the State of Wisconsin to be affixed. Dated at Madison, Wisconsin, 20th day of October, 1856.

[L. S.]

By the Governor, COLES BASHFORD.

Jno. W. Hunt, Ass't Secretary of State.

☞ This being Thanksgiving Day, it will be observed as a Holiday by all in our Office. No paper will be issued to-morrow morning and the Office will be closed during the day.

Thanksgiving Day.

In accordance with time-honored custom, the people of Wisconsin, in common with the people of most of the sister states, are invited to-day to rest for a few fleeting hours from their usual avocations, and to think of the reasons which they have for thankfulness to the Great Disposer of Events, for such blessings, such favors, such success, as has been allotted to them during the past year.

However much some people, who in these latter days have learned to regard themselves and their doings and happenings as the accidents of the moment, may choose to smile at the innocence of the men and women of that earlier time, who, when their crops were gathered and garnered, set apart a day of devout thankfulness to the God whom they recognized as the Bounteous Giver of all good, the example was nevertheless a good one, and we trust may long be followed by the people of this country.

It is a day in which to remember *positive* good gained, success achieved, blessings conferred, and to be grateful for all. In the review of National and State and Municipal affairs, every American citizen may well rejoice at this time in the blessings of peace, prosperity, rapid and substantial growth, increase of material wealth, and of intelligence among the people. Each individual can doubtless, if he will but take the time for it—as many do not—find large occasion for thankfulness to-day. The attempt will do no harm to those who are not accustomed to it.

It is a day in which to remember *comparative* blessings; and here we are all on a common footing, for there is no one so unfortunate that he cannot think of others who are less fortunate—none so poor that they cannot find others whom poverty grinds more closely—none so afflicted that they may not sincerely be thankful that their lot is no worse. Let such then, to-day, be thankful and take courage. A firm heart and honest industry may, by the end of another year, bring positive blessings to be thankful for.

There are remembrances flitting about the minds of many to-day, of Thanksgiving seasons in New England long ago, when from the far off cities of New York and Boston, or from the then far west of central and western New York, through driving snow-storms, muffled in furs and robes, came back the sons and daughters and grand-children to the warm fire of the old homestead, and the warmer welcome of the "old folks." Such recollections may well be cherished, for, migratory, driving, busy people that we are, we are getting to have no homesteads, no old familiar roof-trees, no home attachments, and the boy growing into manhood now-a-days scarcely knows or cares, where himself, much less his father before him, was born—and we are none the better for such forgetfulness.

Custom makes this a day of festivity among all who have the means to indulge in it. Among a people comfortably off in regard to worldly matters, almost every family will have its feast according to its means. From attending the religious services held in most of the churches this morning, and rendering thanks more or less devout and heartfelt for blessings bestowed, the custom of the day carries the people homeward to enjoy a goodly share of the creature-comforts provided. We shall but follow our usual custom on these occasions, when we remind our readers that that man gives best thanks for good bestowed upon himself, who forgets not to communicate good to others—that church-going to-day from habit will not put anybody a step further toward heaven, who goes home selfishly to indulge his appetites while his neighbors want—and that the gift of a Thanksgiving dinner to-day to a needy family will be better than the richest seasoning of the most bountiful table.

Remember! THE POOR YE ALWAYS HAVE WITH YOU.

Excursion to, and Celebration at Ripon.

At 7 o'clock on Tuesday morning, an excursion train took a large company of citizens and invited guests over the Horicon R. R. to Ripon on the occasion of celebrating the opening of the Rail Road to that place.

The day was propitious, the company in good spirits, and a good time generally anticipated.

As the train approached Ripon, the road on either side was lined for a considerable distance with spectators, eager to catch the first glimpse of the iron horse, approaching on the iron cord which *now* binds Ripon to "all the world and the rest of mankind."

The arrival of the train at Ripon station was greeted by the booming of cannon and the shouts of the multitude. A procession was formed and headed by a brass band, marched from the station to Henton's Hall, over the street from which was suspended a beautiful banner bearing the device of a locomotive and tender, with the motto —Ripon greets Milwaukee." A sumptuous dinner was provided at the Hall, to which a large company sat down and did ample justice.

The festivities at the Hall were interspersed, with sentiments and speeches, congratulatory of the event and the day. In the meantime a large company were regaling themselves at the Mapes House, a new and spacious hotel, which for neatness, order, and general arrangement, is a credit to Ripon.

Everybody and his wife was there, and everybody was bound to have a good time generally, and seemed to enjoy themselves hugely. The festivities of the day wound up with a *hop* at Henton Hall.

We congratulate our Ripon friends on the occasion of the completion of this great enterprise, which must of necessity add greatly to the business and general prosperity of this already enterprising and beautiful village.

The Result in this State.

We have the official returns from the counties of Lafayette, Pierce, Outagamie and Crawford, which, being added in our table make Fremont's vote and majorities foot up 59,106, and Buchanan's 45,289; leaving Fremont's majority so far 13,817.

MILWAUKEE & BELOIT R. R.—We learn from Mr. Hill, the President, and Mr. Shepard, the Chief Engineer of this road, that 200 men are already at work on the grading, and 300 more will be put on in a few days, when every section on which winter work can be done in the first 30 miles will have it, busy laborers making ready for the track. Speed the good work!

Funeral of Solomon Juneau.

The notice of the Mayor, setting forth the order of arrangements for the funeral of the late SOLOMON JUNEAU, will be found in our paper this morning. We hope that all the military and Fire Companies of our city, the Masons, Odd Fellows and other civic and benevolent Societies and Associations, and the various Trades and Professions, will make the necessary arrangements to take part in the funeral pageant, and be ready to report to the Marshal, at the Common Council Room, to-morrow morning. A letter from Mr. H. K. WHITE, son-in-law of Mr. JUNEAU, received yesterday, apprises us that the remains of Mr. JUNEAU were expected at Fond du Lac yesterday, and would be brought thence immediately to this city.

What of "Bleeding Kansas?"

Many of our Buchaneer exchanges, who only choose to see in the result of the late election the fact that Mr. Buchanan is elected President, and refuse to recognize the rebuke which they have received from the intelligent voice of the country, are of late amusing themselves with the taunt, flung at the Republican party,—"*what has become of Kansas?*" A few words will suffice for *our* answer.

Thanks to the determined position taken by the people of the Free States, and to the salutary fear of utter defeat created in the minds of the powers at Washington, whose representative Mr. Buchanan was in the late campaign, the Administration was compelled to change its course towards Kansas, and from allowing the Missouri invaders to run riot there, to make a *show* of fairness. It matters not that it is but a show, and that the real tests, as shown in the trials at Lecompton, indicate that the Administration is determined to enforce the bloody Missouri code; the mere show of fair play to which President Pierce instructed Gov. Geary, has disgusted the leading spirits of the border invasion. Large numbers of the men who were mustered in the far south, and went in armed bands to Kansas to fight and vote, but not to settle—and went unmolested, while the avenues of travel were closed against settlers from the free States—have left, now that the cold winter is coming on, and there is a degree of quiet in the territory which allows the inhabitants, in most sections, to rebuild their ruined homesteads.

The demonstration made throughout the free States on the subject of the outrages in Kansas, will also, it is thought and hoped, have a salutary influence for the future. The Republican Party, which is stronger, in this day of its defeat, than the party which is temporily successful, is sure to be the dominant party in the future, since its noble, humane, patriotic objects must commend themselves more and more to an intelligent people; and there is room for doubt whether Mr. Buchanan, never remarkable for keeping strictly by political pledges, will feel called upon to aid in the utter annihilation of the once powerful national democratic party, which indeed is now only sustained, that it may be used, by the fire-eating secessionists of the South. Hence we say there is room for hope that when Slavery shall demand of Mr. Buchanan the fulfilment of the pledges for its extension, made for him to secure the vote of the slave States, he may have the courage to reply, in effect, that it was only by pledges to Freedom, in the free States, that he carried electoral votes enough to secure him his seat; and he *may* choose to keep *these* pledges rather than the others.

So that there is thus a hope that Kansas, if her heroic settlers are sustained through this winter, and a large reinforcement of freemen go thither in the spring to make them free homes, will come out at last from her trials, uncursed by Slavery. When she shall come into the Union as a Free State, it will rest heavily upon the consciences of those in the democratic party who have consciences, that they have done what they could to prevent it. We would rather have it in our memory that we aided in making it a Free State.

NEWSPAPER FOR SALE.—The *Plaindealer* Office, Waukesha, is offered for sale, the proprietor, (MR. PRATT) "expecting," to use his own words "a lucrative appointment from Mr. Buchanan, in part payment for past services, and therefore anxious to be ready to discharge the duties and labors that his country may require of him." The office is well located for business and the paper only needs to be Republican in politics to be well sustained by the intelligent and substantial yeomanry of Waukesha County.

MAINE.—The Kennebec *Journal* has returns from all the towns in the State except 19, and and from all the plantations but 45. They give the following footings:

Fremont	61,450
Buchanan	31,191
Fillmore	3,053

Fremont over Buchanan, 27,269. In the entire State the plurality will be about 28,500.

VERMONT.—The Montpelier Daily *Journal*, of the 19th, has returns from 220 towns in the State, which gives the following aggregates:

Fremont	37,602
Buchanan	9,974
Fillmore	567

Fremont's plurality 27,628. The towns to be heard from will increase this to nearly 30,000.

Hon. George T. Hodges, Republican, is elected to Congress in the first district, in place of Hon. James Meacham, deceased, by a majority of 8,000.

UNIVERSITY LAND SALES.—The sales of University (Saline) land have drawn a very large attendance, and are going off with great rapidity.—Much dissatisfaction is expressed at the price, and we understand a report has been authorized by one of the late appraisers, that the Board of Commissioners at Madison, doubled the appraisals reported to them all round. The rates have run from three to eight dollars per acre. Apparently a large quantity of the land is going into the hands of speculators.—*Prescott Transcript*

If speculators are taking a large quantity of these lands at double the price fixed by the appraisers, it shows clearly enough that the appraisal must have been shamefully low, as indeed have been most of the appraisals of school lands in this State.

☞ The Shanghai's couldn't beat Mr. Buchanan, so they set up a run on the Lancaster Bank, of which they supposed Mr. Buchanan was still President, but who had a short time previously resigned. But the Bank paid every dollar promptly, and they could no more run it off the track than they could old Buck himself.—*Madison Patriot.*

Unluckily for this flourish, the Lancaster Bank *has* suspended payment; though we are not disposed to credit the *Patriot's* story that the Shanghaies broke it, or that "Mr. Buchanan's" resignation brought about the failure. It is proper to add, moreover, that Bachman, not Buchanan, is the name of the late President.

K. N. VOTES.—Of the 186 K. N. votes of Grant County, 50 did not vote for Congressmen. 136 did vote for Congressman, of whom 86 voted for Crawford and 50 for Washburn. This is a clear case as the canvass table shows. In nearly every instance, as will be seen in the Town vote Crawford gets a majority of the K. N. votes, and so do most of the democratic candidates. We learn the same is true of every other County in the State. The tickets with a Fillmore head and democratic tail had such a great affinity that they stuck together as it cemented with gum.—*Grant Co. Herald.*

This was the case all over our State. The Buchanier and Know-Nothing allies worked and voted lovingly together. But the coalition was powerless against the glorious Republican phalanx of our Free State.

Kansas Can't Kum it.

The great State of Vermont, with a great Freedom and Fremont heart, has some little of New England economy left in her after all. Her Legislature, has now, that election is over, rejected the bill appropriating $20,000 to aid the people of bleeding Kansas.—*News of yesterday.*

The *News* is too fast. The telegraph yesterday reports that the Vermont Legislature has *passed* the bill making the appropriation.

LONDON, July 22, 1856.

When I left my readers in my last letter, I was seated on the coach, admiring the way-side scenery between Brussels and the field where the memorable battle of Waterloo was fought. In a couple of hours we were set down at the quiet village of Mt. St. Jean. Here we changed coaches and were joined by Sergeant Munday, whose services were included in our fare, and proceeded to different parts of battle field. The Sergeant was in the battle, being attached to the 7th Hussars. He makes a capital good guide, and is not only a person of good education, but is extremely courteous and polite. He informed me that he thought some of going to the United States with a model of the battle field which he has been making, and giving a few lectures upon the subject. He has a very happy faculty of weaving into his description anecdotes, historical recollections, and personal *on dits*, that enriched his entertainment to the satisfaction of all our party. Although time has whitened his locks, yet he has all the vivacity and buoyancy of youth.

On reaching the field itself, I was struck with its natural adaptation for the collision of two mighty armies, as they might with propriety be called, bent upon the destruction of each other. As in Germany, so in Belgium, there are no division fences, and the lands all lie apparently in common. Imagine then, a country like Rock Prairie, in our own State—two lines of smooth hills, rising perhaps forty feet high, running nearly parallel with each other from East to West, leaving a valley between, ranging from two to three miles in width.

Such was Waterloo, and such is it now. The British troops occupied the North lines, a distance of more than three miles, while the French occupied those on the South. Blucher came in by a road from the North East. There was no place in which I felt so strong an interest as that called Hougoumont. This was a chateau formerly occupied by one of the Flemish nobility, and like all the buildings of so early a date, was walled in. Here was the scene of the greatest carnage during the day, having been taken and retaken by both parties several times. The buildings which were not burned, the fruit trees in the garden, and the walls, are riddled with bullets and cannon shot. In one of the outbuildings the wounded officers and soldiers of the French were carried until it was filled full.—From one of the shells of the enemy it was set on fire, when it was burned to the ground, and every one perished in the flames. It is a curious fact, yet true, that the inside work of a little chapel at the same time took fire and all its contents were consumed, except a statue of the Saviour, carved out of wood, suspended on a cross as on Calvary. When the flames reached the feet they stopped, and, as the lower classes of the peasantry believe, by some divine interposition. This is shown at the chapel among other relics. The feet appear to be a little scorched, and I have no doubt it is the identical one, for I have seen many of them suspended by the way side in different parts of Europe. Fame, too, has its votaries here, as elsewhere. The walls of the little chapel were carved with names of visitors as far up as the top of the rotunda. Boys were around with ladders and materials for creating immortality, at a franc each. The Sergeant told us that the walls were carefully whitewashed each spring, and that if, before the season was over, room got to be scarce, a section was wiped off to make room for the new candidates for fame.

Near the centre of the brow of the hill, ranging from East to West, on that portion of the ground occupied by the Allied army, is an earth monument, about 200 feet high, somewhat resembling the form of one of the Egyptian Pyramids. Beneath this lie the bones of an innumerable number of officers and soldiers, friends and foes, who fell together, and were indiscriminately thrown into one mass, and buried together. This monument was built, I am informed, at the joint expense of the Allies. On the top of it is a pedestal, supporting a colossal bronze lion, called the Belgian lion, but with what propriety I know not, for in all the museums of ancient sculpture, both Roman and Grecian, the same may be seen. It is that of the lion in repose, with his right foot raised and resting upon a globe. The material used in the casting was the cannon taken from the French in this battle. A flight of some five hundred steps leads to the top, and those who undertake to run up to the top without stopping, as some of our party did, will find they have committed a serious mistake. This vast pile of earth, occupying the area of more than an acre at the base, was entirely made by the hands of women and children, and all the earth carried on their backs.

We were also shewn the spot where the brave General Picton fell, mortally wounded, and where Col. Ponsonby was hit by a musket ball. Near by was one single grave in which four thousand men and many horses were interred together.—Not far off is a cast iron monument, erected by the Prussian Government to the memory of her own sons who perished in this battle.

This land was quite ordinary previous to the battle, but since that time, being enriched by the blood and the bones of so many that perished, it now and ever since has raised heavy crops of wheat. Such are the fertilizing properties of blood and bones of the human body, that in those spots where there was the greatest carnage, the more rank and stout grows the grain. When the poet Southey visited this field some years ago, it was covered with the ripening grain as now, but he failed to recognize this fact. Yet he alluded very beautifully to the green fields, the growing crops, the pastures and woodlands, when he says:

> "Was it a soothing or a mournful thought,
> Amid this scene of slaughter as we stood
> Where armies had with recent fury fought,
> To mark how gentle nature still pursued
> Her quiet course, as if she took no care
> For what her noblest work had suffered there."

That night I returned to Brussels, and although we had a severe shower on our way home, which somewhat marred our enjoyment, in very few of my rambles have I ever spent a day in which I took a deeper interest in what I saw, read and heard. The next morning I went down town to see the place where the ball was held, so graphically described by Byron, the night but one previous to the battle. The same building in which it was held is now no more, but another occupies its place. This ball was actually given by the Duchess of Richmond and was attended by the *elite* of the city and by the officers of the army. It is said by English historians that Wellington knew of the advance of the French army that day at one o'clock in the afternoon, and that he permitted the ball to proceed in order not to create any suspicion, or excitement. At all events it is true that all the officers danced until ten in the evening and then withdrew, while he remained until twelve. This shows how fickle fortune is. Had Wellington lost Waterloo, as he undoubtedly would have done, if treachery had not been resorted to against Napoleon, the iron Duke, as he afterwards was called, would have been taunted and ridiculed for the balance of his life, for having been engaged in a ball room when his duties as a soldier required his presence in the camp.

Although few, if any, Americans ever come to Brussels, yet I do not see why, for it is not only a pleasant, healthy and cheap place to live, but it contains a free press and an enlightened constitutional government, with a king ready to make any concessions to the people which may advance their good. This is also a great market for carpetings and lace. Very few lady travellers who do not wish to purchase the latter article here, for there is no other place in the world where it is manufactured as well and where it is sold as cheap. The flax from which it is wrought is grown in Belgium, and the best quality is said to be worth more than its weight in gold. At some of the manufactories, I am told that the operatives have to work in darkened rooms, and that in time they get their eyes so skilled and adapted to spinning the most minute and spider-like threads, that even by the aid of glasses no variation, or imperfection can be found in them. From such are woven and worked the finest and most expensive kinds of lace.—Many of the shops and stores are almost, if not quite equal, to those of the *Palais Royal*, and other fashionable quarters of Paris.

The ancient and venerable city of Ghent has a most pleasing appearance in approaching it from any quarter. Its lofty churches, its public edifices and ancient walls, looming up in the distance, carry one's mind instinctively to the past, for there she is only known, having been entirely forgotten and overlooked in the march of improvement of other cities within the last hundred years. Formerly she was a city of 200,000 inhabitants, and so great was the number of the operatives in her manufactories, that when the bell rang morning, noon and night, summoning them to their meals, no other class of citizens were allowed to go into the streets to interrupt the great rush and current of this class of citizens, and also as a preventive against accidents of being crushed in the crowd. It is said that the city alone could furnish 80,000 armed men on a few hours notice. It was once the capital of Flanders and where Charles V. was born.—Here was once the splendor of courts, the palaces of the nobility and the pomp and show of wealth. Here on a great scale of magnificence was celebrated, in 1847, the marriage of the Grand Duke, Maximillian, with Mary of Burgundy. But there is a tide in the affairs of cities as well as in those of men, and there is a little left here now to identify it with the Ghent of olden times. The gaudy show of Royalty and the pageantry that power draws after it, are all gone.

Among other objects worth visiting is the old Belfry Tower, built in 1188. As long ago as that period the working classes wrung from the crown the privilege of building a tower of this description. It is some 200 feet high, and from the top there is a fine view of the city and surrounding country. It was for many centuries used also as a watch tower from which they could descry an approaching enemy—but its purposes were more legitimately for the uses of the people, and at the sound of the great bell they were immediately summoned to arms or brought together to debate upon subjects in which they were directly interested. This bell was called the tocsin. The top is surmounted by a gilt dragon, which as long ago as 1445, was taken from their neighboring city of Bruges in one of the contests between the two cities. The men of Bruges had obtained it from one of the Greek churches in Constantinople at the time of the Crusades. They were soldiers under the great Baldwin, brother of Godfrey of Bouillon.

The *Hotel de Ville*, like that of Brussels, is an old and stately pile of buildings built with three or four different styles of architecture. In front are seen the effigies and statues of the Counts of Flanders and Dukes of Brabant, clothed in the armor of the Middle Ages. Time, as with all other things, has made sad havoc with this venerable building and its ornaments. The old Cathedral, too, founded in 944, is interesting. Its walls are lined with black marble, and the interior filled with innumerable paintings and statues, while high above are hung the banners of the knights of the Golden Fleece, with their names inscribed opposite. But I had so little time to stop, I had reluctantly to leave Ghent with many interesting things unseen.

Nicaragua Intelligence.

New York, Nov. 16.

Steamer Texas arrived this morning from San Juan via Key West, connected with the Sierra Nevada, which left San Francisco, Oct. 20th.—The latter steamer passed the Orizaba on the 25th and the Sonora on the 26th, both bound up.

The Texas brings Granada dates of the 1st instant.

Matters in Nicaragua quiet since the battle of Massaya. Walker was awaiting the arrival of recruits before marching again upon Massaya and Leon.

Gen. Henningsen, the Hungarian who superseded Gricouris, was drilling the army in the use of the mountain howitzer and the minnie rifle.

The army counts 2,000 men, all in good spirits and eager for an engagement with the enemy.—The decisive battle it is thought would be fought about the 8th or 10th of November.

The steamer Virgin arrived at Granada the 30th, from Ubaldo, with a full cargo of cattle, corn and rice. Matters in that department were quiet.

Terrible Disaster at Sea.

Loss of the French Steamer Le Lionnais.

OVER 100 LIVES LOST.

ONLY FIVE PASSENGERS AND NINE SEAMEN RESCUED.

Their Sufferings at Sea—Death of Two of their Number—Their Arrival.

From the New York Herald Nov. 15

It is our painful duty to record this morning another terrible calamity at sea. The case in hand is not unlike that of the ill fated Arctic.

The iron screw steamship Le Lionnais, Captain De Vaix, sailed from this port, on Saturday, Nov. 1, for Havre, with the following named passengers:—

Mrs. Frances C. Dammer,
Mrs. Cora A Dammer,
M. Solomon,
Mrs. Strong,
Mr. Bailey and lady,
Phillip Guglelm,
J. F. Bassford, lady, children and servant,
Don Vincente,
Dias Comas,
Don Jose de Ulate, lady and servant,
Herman Hunter and lady,
Albert Sumner, lady, daughter and serv't,
T. C. Gibson,
Mr. Shedel and lady,
Mr. Van Luis,
C. Beaugrand,
M De Montigny,
Mr. Traburos,
Mr. Acelo,
L. Martin and child,
E. Ravoit,
Rev. J. B. Cocagne,
Saul Sasportas,
A. Louette,
De Lestrange,
A. Frolein,
Ernestine Bellett,

—thirty-nine cabin passengers—and there were on board, including officers, crew, engineers, firemen and steerage passengers, near one hundred and fifty souls. She also had twenty thousand dollars in specie on freight.

On the night of Sunday, the 2d inst., while in a dense fog, Nantucket light-ship bearing N. N. W., and distant 60 miles, the ship was run into by an unknown vessel and her stern cut clean off. Nothing more was seen of the unknown vessel, and it is probable that she went down immediately.

Not so with Le Lyonnais, she remained with her after part full of water, and her bow high out of the water. All hands staid by the wreck until the next day, when it was abandoned. The ship was provided with six boats, only one of which was a life boat. That boat only has been heard from.

On the morning of Monday, after it was resolved to abandon the wreck, a raft was constructed, and about forty persons, probably the steerage passengers, took refuge upon it. It is the opinion of the second officer that this raft could not have lived through the rough weather that succeeded this day—that it must have been broken to pieces, and that all on board perished. There is room for hope that some friendly sail might have rescued them.

In another boat was the commander with some of the passengers. This boat was well provided with provisions, compasses, &c. It was the intention of the captain to pull for Montauk Point. This boat has not been heard from.

Another boat contained the second mate, Laymire, the second engineer, Deafour, several of the crew and passengers. This is the only boat heard from so far.

We have no account of the other five boats, and the raft save that which is given above.

NAMES OF THE SAVED.

PASSENGERS.

Mr. Shaler and wife,

Mlle. Ernestine Bartlett,

Mr. Shaler and wife remained on the Bremen bark. The other arrived here on the Hamburg bark.

Champeunt, seaman,

Doublie, "
Cousin, "
Blenzarme, seaman,
Jost, "
Poseax, "

Lumbert, "

Two of the boat's crew died in the boat, which reduced their number to sixteen, all of whom are thus accounted for.

The sufferings of these unfortunates may be imagined. At present they are likely to recover, but their limbs are frozen and swollen. The ladies suffered terribly, but bore up with the fortitude for which the sex is so eminently distinguished in the presence of real danger.

From the Detroit Tribune.

FAIRBANK'S SCALES.—"RIGHT WILL ALWAYS TRIUMPH."—On the 8th of September last a letter appeared in the Rochester *Union* signed by one unknown JOHN J. JONES, reflecting upon the correctness of Messrs. FAIRBANKS'S IRON FRAME TRACK SCALE, recently put in the Michigan Central Railroad Grain House, at Detroit, in the place of one of Duryee & Forsyth's Track Scales, *removed*. The controversy alluded to by JOHN J. JONES, respecting their Hopper Scales, is one of which *none* of Messrs. Fairbanks' men had anything to do; they have applied no weight to it, or tests of any kind.

This statement, as to its correctness, we know nothing of, and have never heard that any person but JOHN J. JONES was present at the time mentioned by him. Whether right or wrong, it was none of our business.

I contracted for Messrs. Fairbanks, with the proper officer of the Michigan Central Railroad, to put up one of their new modification IRON FRAME TRACK SCALES, in the place of one of Messrs. Duryee & Forsyth's Scales.

The scale was put up, and has been doing its work well; no fault has been found by the officers of the road, from the time it was put up to the present time.

It was our business to see that our scale was correct, not to interfere with Duryee & Forsyth's controversy with other parties.

The only test of our Scales witnessed by disinterested prominent citizens, is the one embodied in the following statements of facts.

R. N. RICE Esq., Supt. Mich. Cen. R. R.

DEAR SIR:—By invitation, we witnessed yesterday, a test of your "Iron Frame Track Scale," or thirty tons, of Fairbanks' manufacture, recently placed in your Grain Warehouse. The following is the result.

A freight car, loaded with corn, was placed on the extreme end of the track, over the scale, the poise on the beam indicating 24,730 lbs. The car was then moved to the extreme end, the poise indicating precisely as before, 24,730 lbs. It was then placed on the center of the scale, the poise still indicating as before, 24,730 lbs., no variation between the ends and center. Several trials were had, with precisely the same results.

We most cheerfully state that we consider the scale one of superior workmanship and correct in every respect.

C. A. TROWBRIDGE.
Managing Director Collins Iron Co.
H. P. BRIDGE, President Board of Trade.
GEORGE R. GIVAN, Agent Wyandot Rolling Mills.

Detroit, Oct. 14, 1856.

The question is thus settled, that the ends of the scale agree, and that the center agrees with the ends.

John J. Jones says the scale does not agree with itself.

I copied from the books of the clerk at the grain house the following entry. The result of which shows an accuracy that will satisfy any business man, unless it be John J. Jones;

No. cars, 1, 40. Billed red and white wheat		41,110
Gross weight	40,110	
do car and white wheat	27,490	
Weight of red wheat	12,620	12,620
Weight of car and white white	27,490	
Weight of car	10,000	
White wheat	11,490	11,490
Weight of car	16,000	40,110
RECAPITULATION.		
Weight of red wheat	12,620	
Weight of white wheat	11,490	
Weight of grain and car	24,110	
Weight of car	16,000	
	40,110	

The car was weighed on the track scale in question, on the 11th instant, in the usual routine of business at the Grain House.

To the commercial world we would say that we are glad to add another living evidence of the correctness of Fairbank's Scales. Had the immortal John J. Jones confined his mission to the vicinity of Detroit, no notice would have been taken of it, but the contrary being the fact, we submit the above for the due consideration of the public.

Agent for Fairbanks & Co., Detroit Mich.

Republican Meeting in Washington.

Washington, Nov. 15.

A meeting of the Republican Association of this city was held last night. Resolutions were unanimously passed for the continuation of their organization on the principles of their old platform and those of the Philadelphia Convention.

A Committee was appointed to draft an address and resolutions of congratulatory character to the friends of Fremont and Freedom, and urging upon them the importance of keeping up their local organizations.

General John H. Eaton, formerly prominent in political circles, died this morning, aged 68 years.

NEW TOWNS.—Three new towns have been created by the Grant County Board—Blue River, Waters and Hickory Grove, all in the Northeast part of the County and all touching on the Southwest corner of Muscoda. Grant now contains 26 towns.—*Grant Co. Herald.*

NOLLE PROSEQUI.—The District Attorney entered a *Nolle Prosequi* on all the indictments for betting at Faro, on Tuesday evening. The defendants put in a plea of abatement, that three of the Grand Jury that found the indictments were unnaturalized foreigners; Judge Collins holding the plea good, the prosecutions were abandoned. There were near a hundred of these cases—*Madison Patriot.*

HEAVY ROBBERY.—We learn that a gentleman from Rochester, N. Y., an agent for a Nursery, was robbed of $6,000 at the depot in this place on Monday evening, at the arrivel of the Western train. The money was in a side pocket, and the robber cut through the coat and lining so adroitly as to secure the heavy wallet without in the least alarming the owner, who did not discover his loss until the omnibus had started for the hotel. He had no clue to the thief.—*Madison Patriot Nov. 19.*

Dalley's Magical Pain Extractor.

THE great and principal characteristics of DALLEY'S MAGICAL PAIN EXTRACTOR consist:

1st. Of its never-failing and unique property, as soon as applied to any external injury, TO CHECK INFLAMMATION instantly, and rapidly to reduce it. This feature constitutes its great power to alleviate the pain of burns and scalds, and of other painful diseases, in so incredibly short a space of time, and as will appear from the few testimonials hereunto annexed. Every intelligent mind is fully aware that, in all cases of external injury, the pain is produced by inflammation of the injured parts; and, therefore, if you remove the cause the effect must cease.

2d. Its purificative properties neutralize the poison that may lurk in the system, and will, when applied to the sores, draw rapidly all impure matter to the surface, and eject it—hence the great discharge it produces from sores occasioned by burns—and when applied to old, inveterate sores, Salt Rheum, or other cutaneous diseases.

Each box of GENUINE DALLEY'S PAIN EXTRACTOR has upon it a Steel Plate Engraved Label with the signature of C. V. CLICKENER & CO., proprietors, and HENRY DALLEY, manufacturer. All others are counterfeit.—Price 25 cents per box.

☞ All should be addressed to C. V. Clickener & Co., 81 Barclay street, New York.

Chills and Fever.

TO THOSE who are afflicted with this disagreeable and baffling malady, we would state, that after years of hitherto unavailing research, a medicine has been discovered which will, in every case, effect a certain and permanent cure of this dreaded disease. It is not a quack nostrum prepared to extract money from sufferers, for the proprietor offers to refund the money if a cure is not effected after following the directions. He is assured by the evidence of hundreds of cures which they have effected, that this medicine is in reality the remedy so long desired in the Western country. This valuable medicine is prepared in the form of a pill, from the bark of a shrub, which has proved to be a perfect antidote to Malaria. They are simple and plain in their nature, powerful and active in their operation, and perfectly harmless to the system, having no other than a specific effect upon the disease which is truly wonderful. Some persons have stated that these pills must contain arsenic, or some powerful mineral, owing to their quick effect in curing this disease. The proprietor would state that he will pay one thousand dollars to any chemist who will find one particle of mineral in this composition.

Certificates of cure from persons of the highest respectability can be obtained by calling at the Drug Store of HENRY PESS, JR., No. 195 East Water street.

N. B. One great recommendation for these pills are, that they only require about five to effect a cure. Enquire for THAYER'S OMEGA PILL, for the immediate cure of chills and fever or intermittent fevers of every description. Prepared and sold wholesale and retail by FRED. W. THAYER, 697 Washington street, Boston.

Agent in Milwaukee,

POLICE COURT NOVEMBER 19.

BEFORE CLINTON WALWORTH, POLICE JUSTICE

He was fined $10 and costs an execution was issued against him, and he not fled that if found in the city to day he would be sent to jail.

Jared Hands was fined $ for driving on a sidewalk

Paul Habl z refusing to obey officer, fined $10 Frank Nugent, obstructing cross walk, fined $5 W Miller charged with assault and battery, case dismissed on payment of costs &c

THE MAN SHOT BY THE POLICEMAN — We visited Michael Portell, the man who was shot by Policeman Smith on Sunday last, yesterday morning, at the Sisters of Charity The wound is a very dangerous one the bullet entered the lower part of the man's back passed through the body, and was found just under the skin of the belly, a slight incision liberated the bullet

He is attended by Drs. Wolcott and Hatchard, and from them we gathered the idea that there were hopes of his recovery It seems that the bullet cut one of the intestines in its passage which cannot diminish the danger — Portell is a powerfully built man, of a resolute and determined appearance, he told us he was a native of Limerick, Ireland, had been in America about 7 years in this city about 1 year, has a mother living in Troy, N Y and a cousin in this city He says he never was drunk in his life He suffers a great deal of pain He is well attended, receiving every care and attention of the Sisters

ACCIDENT AT THE STONE QUARRY —An Englishman named Thompson Topps was badly injured at Moodie's Stone Quarry on Tuesday afternoon Topps was in the act of drilling out the tampering in a blast which had failed to explode The powder ignited and blew the man up in the air, breaking his leg wounding him in several places, and filling his face with powder — He was conveyed to the Sisters of Charity, and his limb set, and great care taken of the man

MAITRANK CHAMPAGNE —We are indebted to BAKER, ISHAM & Co for a sample of a new brand of Champagne, imported by them, and bearing the name of "*Sparkling Maitrank*" It is a remarkably fine wine and will speedily win its way to general favor BAKER, ISHAM & Co have on hand of their own importation, a very choice assortment of London Porter, Scotch Ale, Sherry and Champagne Wines, and other popular potables

A CARD

PEWAUKEE, Wis., Nov 14, 1856

MESSRS EDITORS —I take pleasure in acknowledging the liberality of the Milwaukee Mutual Fire Insurance Company, (of which F M WALLACE is General Agent,) in promptly settling and paying, before it was due the sum of $900, being the *full amount* of insurance on my farm house, which was burned recently My agreeable transactions with the officers of the Company show them to be gentlemen disposed to do right without "quibbling or evasion" and their promptness in settling and paying the loss before it was due showed a degree of solvency which should and will go far to inspire public confidence I feel it due to this old and sound Company to call the attention of farmers to the facts here stated

NEW YORK, Nov 1?

Hon John A King, Governor elect, was honored by the inhabitants of Jamaica, and Queens county generally, with a brilliant ovation last night. Complimentary speeches were delivered A torch light procession, illumination &c , were amongst the ceremonies.

The correspondent of the Daily Times, from Washington, 18th, says an impression still prevails in some quarters that the United States government has assented to the Danish Sound Dues capitalization project. This is an error, arising, probably, from the identity of the name of the British Minister at Copenhagen, with that of Mr Buchanan, late our Minister to Great Britain — Our government has not agreed to, and will not become a party to the capitalization scheme on any terms, because, to do so, would be to yield entirely the principle upon which we resist the Danish exaction.

It will agree, however, to contribute a liberal sum annually to Denmark, towards the maintenance of her light house system in the straits leading into the Baltic

Prairie du Chien Land Agency.

THE UNDERSIGNED having purchased an interest in the Prairie du Chien, (lower town) offers on reasonable terms two hundred (200) lots, situated near the depot grounds of the M. & M. R. R. Co. I am ready to offer inducements that cannot be surpassed in the State, both as to price, terms and location, to all wishing to purchase a site for business or a desirable residence.

The City of Prairie du Chien being the

Terminus of the M. & M. R. R.,

Prairie du Chien is the Point to Double Your Money in Twelve Months.

To my old friends, Railroad Conductors and all others, I will say—call and see me, and you will be sure to be rewarded.

Important to Lumberers, &c.

THE SUBSCRIBER is prepared to dispose of two licenses to cut timber on the north shore of Georgian Bay, Lake Huron, embracing an area of fifty square miles, or $2,000 for each. One is situated on Serpent River, near the Bruce Mines. The other is situated at the mouth and extends up the Shawnaga River twelve miles, and belonging thereto is an almost unlimited water power, near the mouth of the river, up to which vessels of the largest size can ascend. A short distance up the river, the river widens, forming a place in which any quantity of logs can be boomed, thus forming unrivalled facilities for carrying on a large lumbering business and lying nearly on the direct line from Collingwood to Lake Michigan. An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm or Tetter, Scald Head, Enlargement and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of Mercury, imprudence in Life, or impurity of the Blood.

This great alterative Medicine and Purifier of the Blood is now used by thousands of grateful patients from all parts of the United States, who testify daily to the remarkable cures performed by the greatest of all medicines, "CARTER'S SPANISH MIXTURE." Neuralgia, Rheumatism, Scrofula, Eruptions on the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affection of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this inestimable remedy.

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the stomach, makes the Skin clear and healthy, and restores the Constitution, enfeebled by disease or broken down by the excesses of youth, to its pristine vigor and strength.

For the DISEASES OF FEMALES it is peculiarly applicable, and wherever it has become known is regularly prescribed with the happiest effects. It invigorates the weak and debilitated, and imparts elasticity to the worn out frame, [illegible] leaves the patient fresh and healthy. A single bottle of this inestimable remedy is worth all the so called Sarsaparillas in existence.

The large number of certificates which we have received from persons from all parts of the United States, is the best evidence that there is no humbug about it. The Press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the wonderful effects of this GREAT BLOOD PURIFIER.

Call on the Agent and get an Almanac, and read the details of astonishing cures performed by CARTER'S SPANISH MIXTURE, (IN MOST CASES WHERE EVERY THING ELSE HAS SIGNALLY FAILED.) The limits of an advertisement will not admit their full insertion.

TO THE PUBLIC.

THIS is to certify, that in consideration of the many misfortunes which have attended me in the erection of my Saw Mill, at Mapleton, in the town of Oconomowoc, Waukesha County, I deem it proper and in justice to say, that the trouble [illegible] arising in the starting of my Mill, did not lay in the fault of the machinery or water wheel, patented by I. D. Goodwin, and manufactured by Decker & Seville, but from other causes, and I do most cheerfully recommend said water wheel to the Milling community, as having the best wheel I now in use, for driving any kind of machinery, and that it has fully come up to all the recommendations given to it. I shall take great pleasure in showing my Mill to any one desirous of using the best water wheel in the State. In conclusion I would say it will prove building Mills, to profit by my experience, and employ none but good, honest, steady and efficient Millwrights, and you will save money.
